Beneath the Upper Room Fonts

A Note about the Fonts

Papyrus is the font used for the official logo of the show.

Duster1 is a nice arabian-type font that was used in the PowerPoint. The PowerPoint transition effect was to have the title of the show displayed in **Duster1** then have the letters rotate to **Papyrus**. It gave it a translation effect that was very nice.

The fonts are in the public domain and can be readily downloaded on the Internet by searching for the font name. We include them as part of our Performance Packet as a courtesy.
